

# Puppy Daily Feeding Chart

## Step 1

Determine how much your puppy will weight as an adult.

## Step 2

Use adult weight to find amount of calories per day in the chart.

## Step 3

Find "calories per serving" in your dog's food bag.

## Step 4

Divide daily serving into 4 portions for puppies under 4-months; 3 portions for puppies 4-6 months and 2 portions for older than 6-months.

## Step 5

Use part of each portion for socialization and training.

**Note:** This chart assumes your dog is an average active dog.

Adult Weight (lb)	Dry Food (cal)	Wet Food (cal)	Fresh Food (cal)
5	210	200	190
6	245	230	220
7	275	260	250
